DETAILED ACTION

1. Claims 23-30 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 12/27/05.

Accordingly, claims 1-22 will be further examined on the merits.

Specification

2. The disclosure is objected to because of the following informalities:
 - A] on page 4 line 24, it appears that "4" should be replaced with --40--.
 - B] on page 7 line 24, it appears that "be" should be replaced with --by--.Appropriate correction is required.
3. The specification is objected to as failing to provide proper antecedent basis for the claimed subject matter. See 37 CFR 1.75(d)(1) and MPEP § 608.01(o). Correction of the following is required: proper antecedent basis should be provided in the specification for the phrase "ceramic composite", as recited in claims 3 and 19. No new matter should be entered into the application.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
5. Claims 3-4 and 19-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

With respect to claims 2-3 and 19-20, the phrase "other metal alloy" is confusing since it is not clear what other metal alloy the applicant is referring to.

With respect to claims 8 and 15, the examiner take the position that the center feed disk is strictly to be used in an impact crusher.
